

NOVEMBER 1, 2023

How to Create Good Projects (and avoid bad ones)

Environmental Law Institute Wetlands and Hazard Mitigation Workshop

Viv Bennett

Director of Protection and Conservation Strategies, TNC

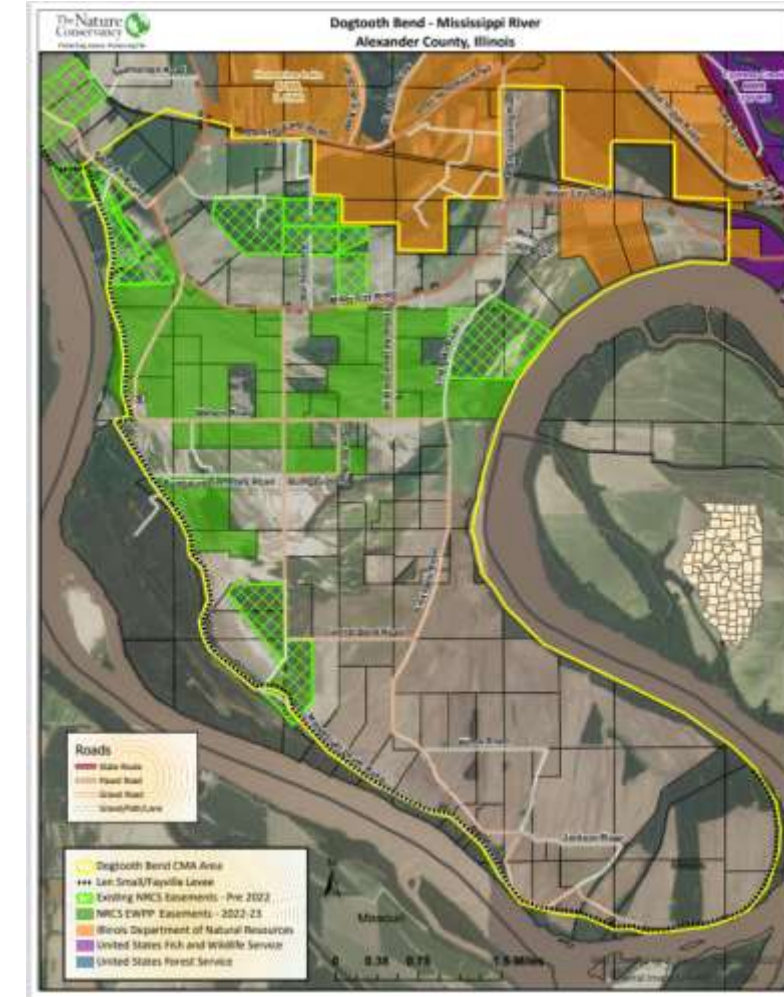

vbennett@tnc.org

**CREATING A WORLD WHERE
PEOPLE AND NATURE THRIVE**

Dogtooth Bend

L536 Large Scale Levee Setback

KEY ELEMENTS

Listen

Listen

Listen

Listen

Listen

Listen

KEY ELEMENTS

LOCAL

- Local voices
- Local needs
- Local champions
- Local knowledge
- Local networks
- Local requests

KEY ELEMENTS

Holistic
Inclusive
Interconnected

- **Co-create with community**
- **Engage from the beginning**
- **Who else**
- **All interests addressed**

KEY ELEMENTS

- Take the time to build trust
- Get to know everyone
- Be humble and listen to learn
- Be open and flexible

- Skilled and thoughtful facilitation
- Build on commonalities
- Work to align expectations
- Communicate

- Everyone matters
- Everyone has something to offer
- Be transparent, open and clear
- Understand cost/benefits

Pre-Engagement Analysis

What do you know?
What do you want to know?
What's already being done?
What could be done?
Who are the champions?
Who are the beneficiaries?
Who are the opinion leaders?
How do people communicate?

What is the WHY?

Listen!!!

How to Scale Up and Out

- Create communications platforms
- Let people share their stories
- Peer to peer networks and storytelling
- Listen
- Partnerships are key
- *Networks are Accelerants*
- Alignments – Recognize, Acknowledge, Encourage, Increase
- Cross-purposes – Recognize, Acknowledge, Work-Around, Decrease
- *Create easy on-ramps and reduce complexity*
- *Messaging hope*
- Celebrate
